

1.1 What is LauncherPlus

The **LauncherPlus** is available to further simplify the process of connecting to Novo devices, including **NovoConnect**, **NovoDisplay**, and **NovoTouch**.

The new generation of **LauncherPlus WQL-500** incorporates new wireless projection technology. It is much easier for users to establish a direct Wi-Fi connection to any Novo device, including NovoTouch, NovoDisplay, and NovoConnect.

Without requiring any software installation for wireless projection, the new **LauncherPlus** also provides high-security encryption to secure user data.
