

1.2 Register Remote Manager Cloud

Welcome to Remote Manager Cloud service. This cloud service platform can help you to manage Novo products remotely. Including hardware control, remote snapshot, remote control, app & firmware deployment.

First, sign up an account via: [Remote Manager Cloud sign up page](#). Fill in the information as below. After that, please go to email box to receive confirmation mail for your account.

The image shows a registration form for Remote Manager Cloud. It is divided into two main sections: 'Create account' and 'Create organization'.

Create account section:

- Header: 'Create account' with a 'Sign in' link in green.
- Field: 'Email as login ID' with the value 'eric.yh.kuo@deltaww.com'.
- Fields: 'First name' with the value 'Eric' and 'Last name' with the value 'Kuo'.
- Fields: 'Password' and 'Confirm password', both masked with dots and having an eye icon to toggle visibility.

Create organization section:

- Header: 'Create organization'.
- Field: 'Organization name' with the value 'vivitek'.
- Field: 'Your region' with the value 'Asia' and a green checkmark.
- Field: 'My role as' with the value 'A reseller' and a green checkmark.
