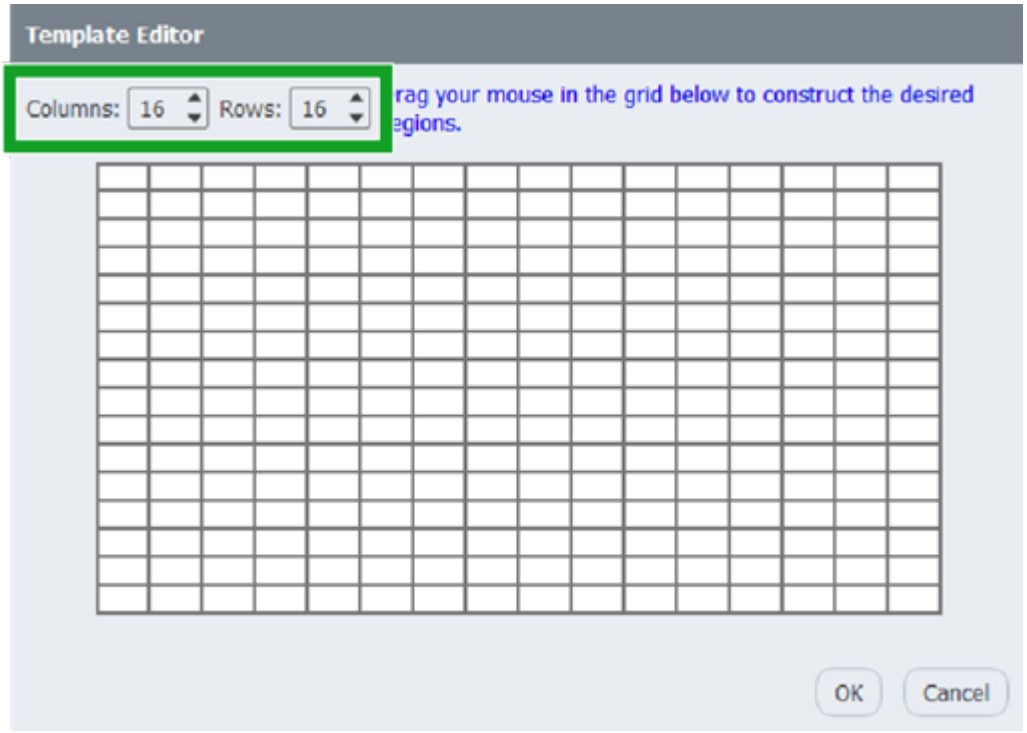
2.1.1.1 Customizing a Grid Mode Layout

When you select **Customize** in the **Select Template** menu for grid mode, the panel on right side of the menu will show the default 16×16 grid layout preview.

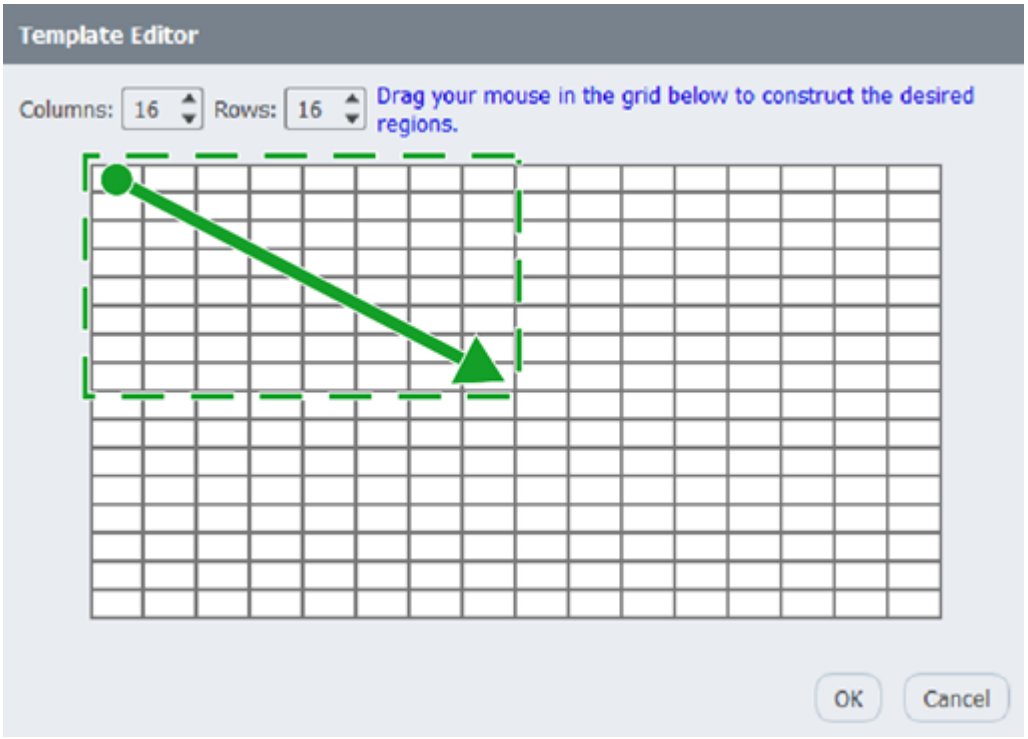
- Click on either the **Template Editor…** button at the top of the panel or the preview in the middle of the panel to enter the **Template Editor** window to customize your layout.
- Click on **Import Template** to import a previously designed grid-based template.

In the **Template Editor** window:

- Select the number of columns and rows you want for your grid.

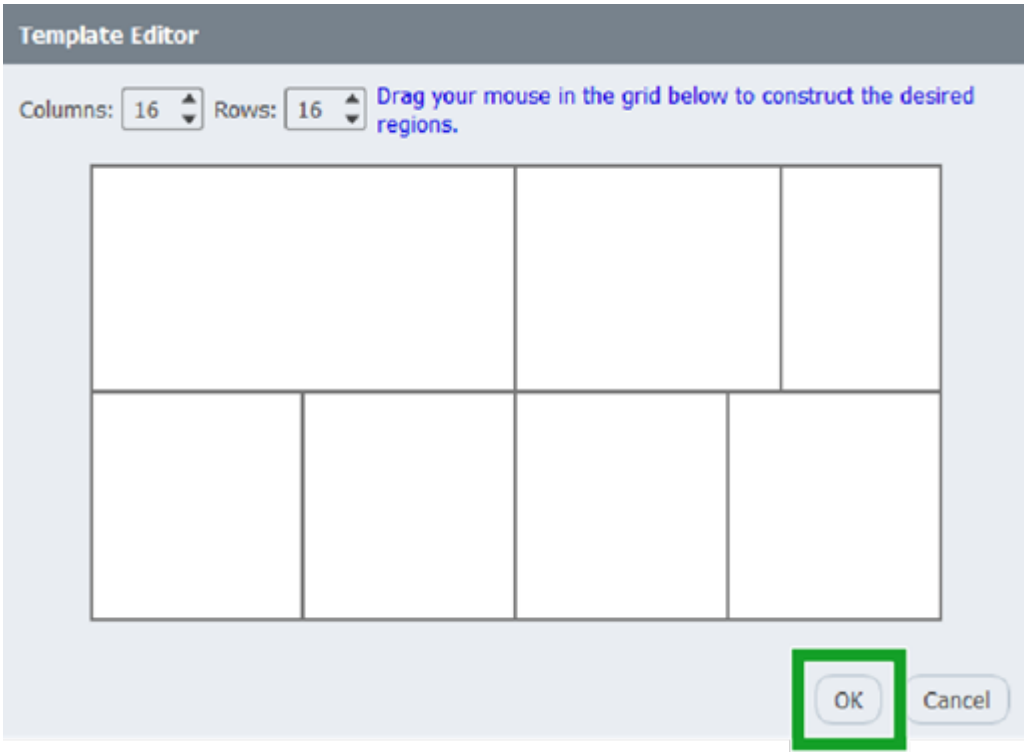


- Click and drag your mouse in the grid layout to create a region within the template.



- Repeat step 2 to create all the regions you want in your layout.
  NOTE: To revert a region you have already created to the original grid, right-click on the respective region.

- Click **OK** to finalize your design and return to the **Select Template** menu.



- Click **Create** in the **Select Template** menu to select your custom-made layout and begin editing the content for your playlist page. Go to *The Editing Menu* for details on editing the content for the page.
  *NOTE: If you want to save the layout you customized as a template for future use, click **Save Template** in the **Select Template** menu.*
