# 2.1 Set Up Preferences

Set up your preferences the first time you launch this application. Follow the instructions to change the default settings to your preferences.:

- In the DSStudio main page, select the icon 'Preference' that is located in the top left.

- In the **Preferences** menu, select one of the following options:
    - **Playlist and Schedule Folder** – Select Default or Customize as preferred playlist save folder in your PC.
    - **Language** – Select your preferred language. The setting requires restarting this application.
