

2.7.10 Remote Text

The image shows a 'Remote Properties' dialog box. At the top, there's a title bar 'Remote Properties'. Below it, 'File Protocol:' is followed by radio buttons for 'FTP' (selected), 'Samba', 'DropBox', 'OneDrive', 'Google Drive', and 'URL'. Underneath, 'Account' is selected with a radio button and a question mark icon. The 'Port:' is a spinner box set to '21'. The 'Path:' is a text box containing 'ftp://127.0.0.1/abc.txt , 127.0.0.1/share/abc.txt'. Below that are empty text boxes for 'User Name:' and 'Password:'. At the bottom left, 'Refresh Period:' is a spinner box set to '15' followed by the text 'Minutes'. At the bottom right are three buttons: 'Save', 'Cancel', and 'Go Back'.

In the **Remote Properties** section, enter the login settings for the storage service where the text file is located, and then in the **Refresh Period** field select how often you want DS Playlist to check for new files stored in the path given.

Once you have finished configuring all the account settings, click **Save** to finish.
