

2.7.10 Remote Text

The screenshot shows a dialog box titled "Remote Properties". At the top, there is a "File Protocol:" section with radio buttons for "FTP" (selected), "Samba", "DropBox", "OneDrive", "Google Drive", and "URL". Below this is an "Account" section with a radio button (selected) and a question mark icon. The "Port:" is a spinner box set to "21". The "Path:" is a text box containing "ftp://127.0.0.1/abc.txt , 127.0.0.1/share/abc.txt". There are empty text boxes for "User Name:" and "Password:". At the bottom left, the "Refresh Period:" is a spinner box set to "15" with the unit "Minutes". At the bottom right, there are three buttons: "Save", "Cancel", and "Go Back".

In the **Remote Properties** section, enter the login settings for the storage service where the text file is located, and then in the **Refresh Period** field select how often you want DS Playlist to check for new files stored in the path given.

Once you have finished configuring all the account settings, click **Save** to finish.
