

## 2.7.7 IP Stream

To display a video stream from an IP camera in a layout item/box click the IP stream button ( ) in the bar to the left of the content menu, and the IP stream menu will appear. Follow the instructions below to configure the display settings for the IP video stream.

The screenshot shows a 'Properties' dialog box for an IP stream. It contains a 'URL' field with a text input containing 'rtsp://127.0.0.1:1234, rtmp://127.0.0.1:1234, udp://@127.0.0.1, http://example.com/video.mp4'. Below this is an 'Others' section with a checkbox labeled 'Set as audio source'. At the bottom, there are three buttons: 'Save', 'Cancel', and 'Go Back'. The dialog box is titled 'Properties' and has a 'Channel ID: Page 1-1' label at the bottom left.

1 URL:

2 Others: ☐ Set as audio source

Channel ID: Page 1-1

3

1. In the **URL** field, enter the URL for the IP camera.
2. In the **Others** field, click the **Set as audio source** box to have the display broadcast the audio from the IP camera's video stream.
3. Click **Save** to finish configuring the YouTube video settings.
