

4.3.1 Start and Stop Playback

Once a device is connected, it can play any playlists available on the device.

1. Select the desired playlist in column "Playlist"
2. Click on the "Play" button to start the playback
3. Once the playback is started, you can click on the "Stop" button to stop the playback anytime.

The screenshot shows a web-based interface for managing devices. On the left, there is a sidebar with 'All Devices (123)' and 'Unassigned Devices (114)'. Below this is a 'Group List' with two groups: '9F (4)' and '2B Showroom (5)'. The main area features a toolbar with buttons for '+ Devices', 'Generate Configuration File', 'Remote Snapshot', and 'Announcements'. Below the toolbar is a 'Playlist:' section with 'Change', 'Upload Schedule', and 'Functions' buttons. The central part of the interface is a table with columns: Label, Name, IP Address, Playlist, Action, and Status. The table contains four rows of device information. The first row, 'Meeting Room 3', is highlighted in blue and has a green box around its 'Action' column's play button. The status for this row is 'Playing Demo_watchhand playlist.'.

Label	Name	IP Address	Playlist	Action	Status
Meeting Room 3	Novo-27DF1	192.168.86.113	Demo_watchhand		Playing Demo_watchhand playlist .
Reception area	<unknown>	10.136.5.53	EU COVID19 StaySafe		
Hallway	<unknown>	172.16.5.144
