# 4.9 Export Device List

To export your device list so that it can be imported to NovoDS Studio in another computer, click the **+ Devices** button and then select **Export** from the drop-down menu.

Once you select **Export** in the drop-down menu, the **Devices Export** menu will appear, follow the steps below to export your device list:

1. Check the **Export Password** box if you want to also include device passwords in the export file
2. In the **Target File** field, click button "**…**" and navigate to the folder you want to save the device list to in your local storage.
3. Click **OK** to export the device list.
