## 5.6 Sharing File and Webpage (URL)

User can share files\* and webpages\*\* (URL)between different platforms when they're connecting to NovoConnect. This article will instruct you how to share via NovoConnect solutions.

- \*Any files less than 10 MB (1MB = 1024 KB).
- \*\*Open an online webpage (URL) will need Internet connection.

## **Sharing**

Click **Tools** on Top-right of the NovoConnect software interface, then click **Share**.

Then you can choose files, take a screenshot of current desktop or paste webpages to others who connected to the same NovoConnect device.

## • Share a File

Share a Desktop Screenshot

■ Send a Webpage

When the file or webpage have been received, there will be a message shown on you desktop screen. User can also check the content by clicking **Open**, or dismiss the dialog by clicking **Close**.
