

# 7.1 Connection & wireless presentation

This chapter is an introduction how to use wireless presentation in NovoConnect Stage. You can have a presentation by wireless under whiteboard and desk mode. NovoConnect Stage supports Airplay & NovoConnect Software to fulfill requirement when needs using presentation. Just find the connection information in home screen or side bar as below image.

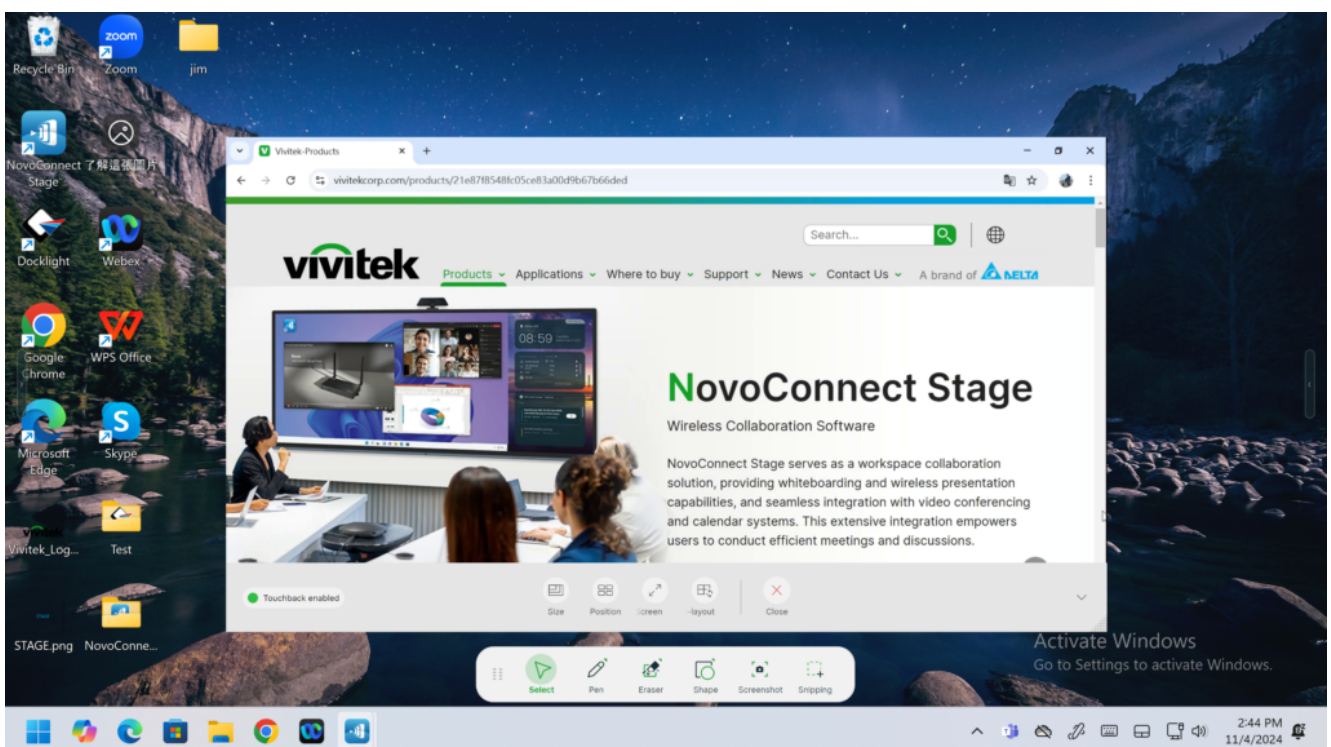

## Connect information

If you have presentation under whiteboard, the content of mirroring will on the corner of right down.

Screen mirroring with whiteboard mode

If you want to annotate on your mirroring content, you can switch to desktop mode.

Screen mirroring with desktop mode
