

4.1 NT Settings

NT Settings contains **Network**, **Display**, **Software Upgrade** and **Device Settings**.

The pictures below explaining the main functions of NT Settings and guiding you how is it working.

How to enter the NT Settings

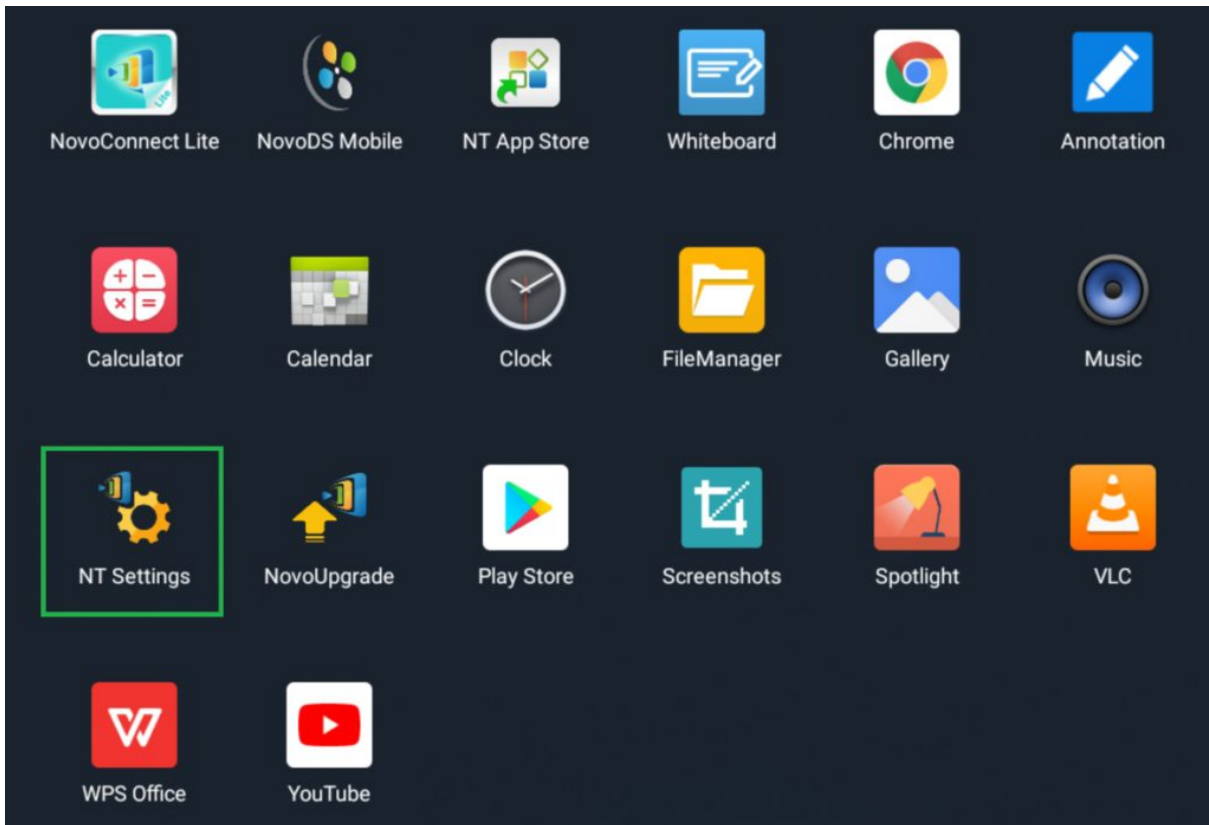

There are two ways to enter the **NT Settings**:

- Tap the **More Apps** at the bottom-center of the screen to open the Apps list

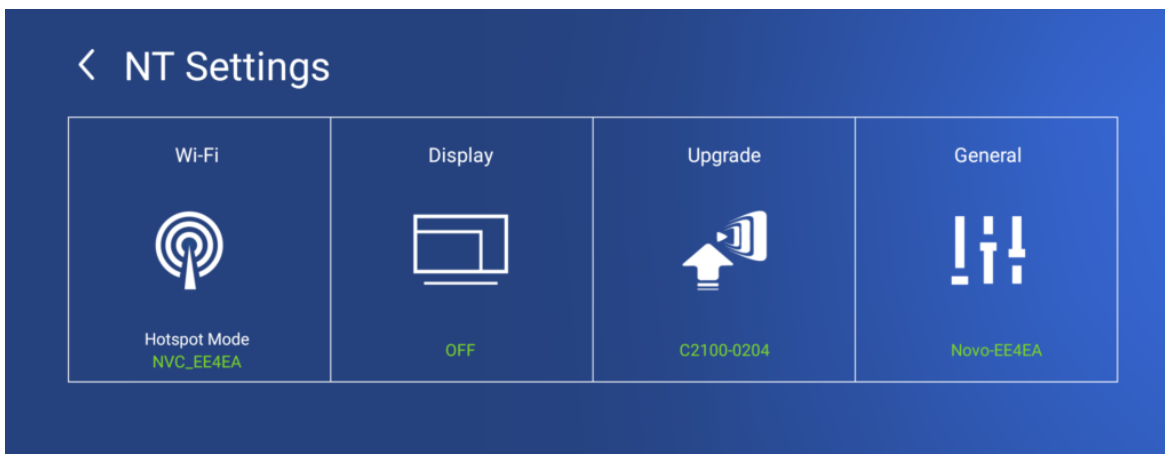

Home screen

Tap the **NT Settings** to enter.

More Apps – Apps list

NT Settings Menu

Wi-Fi Settings

Wi-Fi Hotspot mode is factory default setting, you can switch it to **Connect to Wi-Fi** (AP-Client mode), or **Turn Wi-Fi off** (Radio off).

Wi-Fi Hotspot

Wi-Fi Hotspot mode also provide “**LAN-Wi-Fi-Hotspot routing**”, It means, when this option is enabled, both the two network will be the same routing, if NovoTouch connects both **Wireless** and **Wired** network.

Wi-Fi Frequency and Channel

Select Channel

2.4 Ghz CH 1 CH 2 CH 3 CH 4 CH 5 CH 6 CH 7 CH 8 CH 9 CH 10 CH 11	5 Ghz CH 36 <div style="background-color: #00A651; color: white; padding: 2px; display: inline-block; border-radius: 3px;">CH 40 </div> CH 44 CH 48
--	--

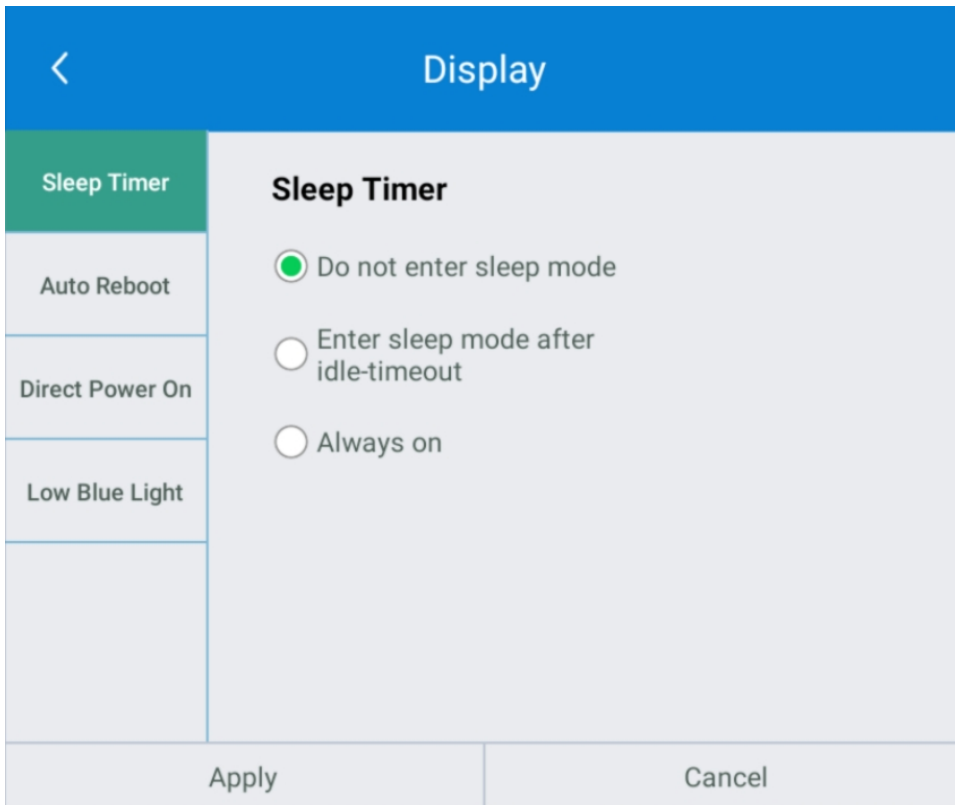

2.4/ 5 GHz Channel selection

Wi-Fi HotSpot mode provide **2.4GHz** and **5GHz**, they have **11 channels** and **4 channels** respectively. **5GHz** and **Channel 40** is factory default setting, you can change the frequency and channel anytime.

Display

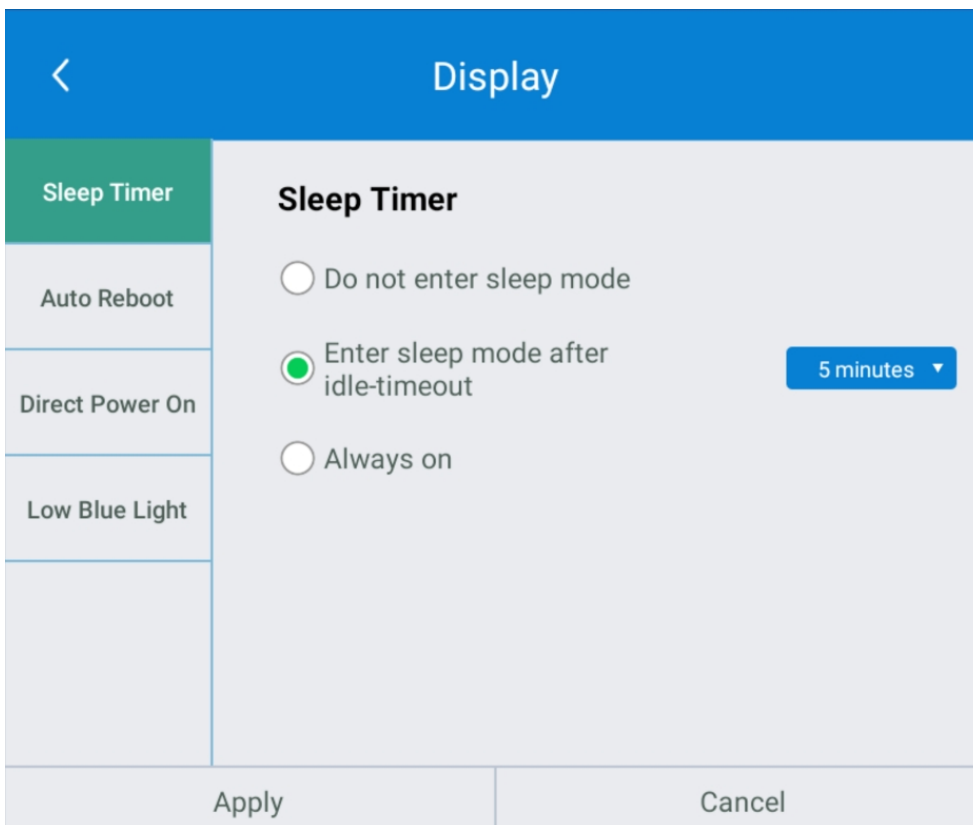

- Sleep Timer

There're two way to schedule the display on and off by **Idle-Timeout** and **Time scheduler**. The default option is disabled.

Default option: Disabled

Idle-Timeout

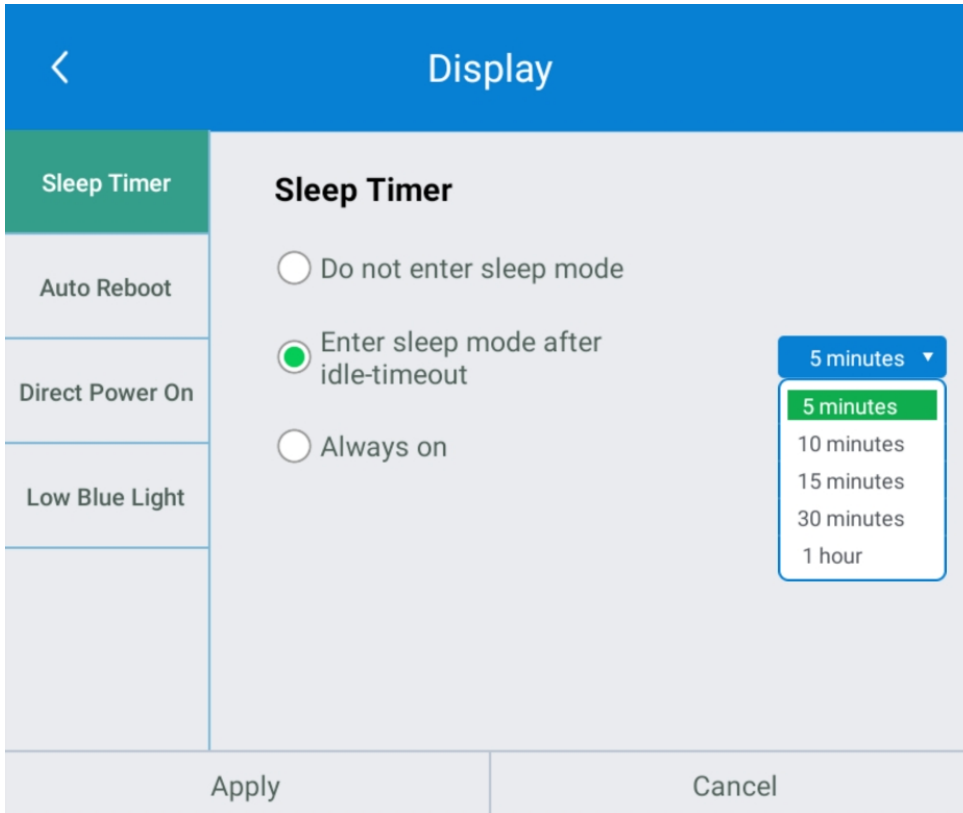

Idle-Timeout

Display can be off after 5/ 10/ 15/ 30 minutes or 1 hour

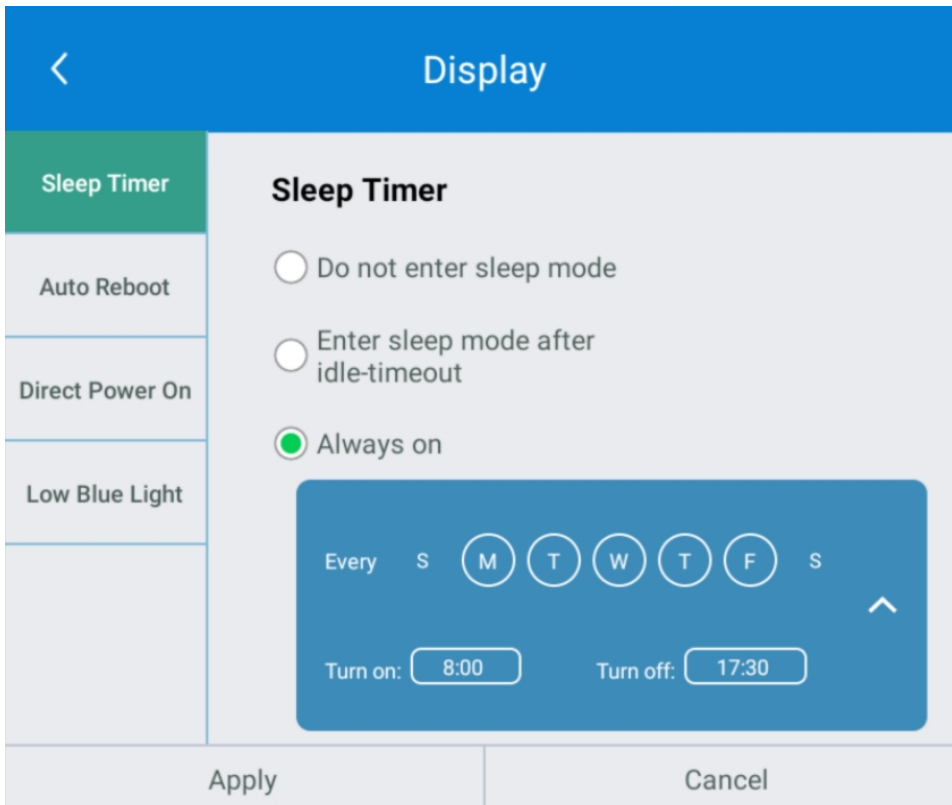

later, when system is idle.

Idle-Timeout counting down will be started since it's applied and must return to the NovoTouch Home screen.

Countdown timer selection

Time Scheduler

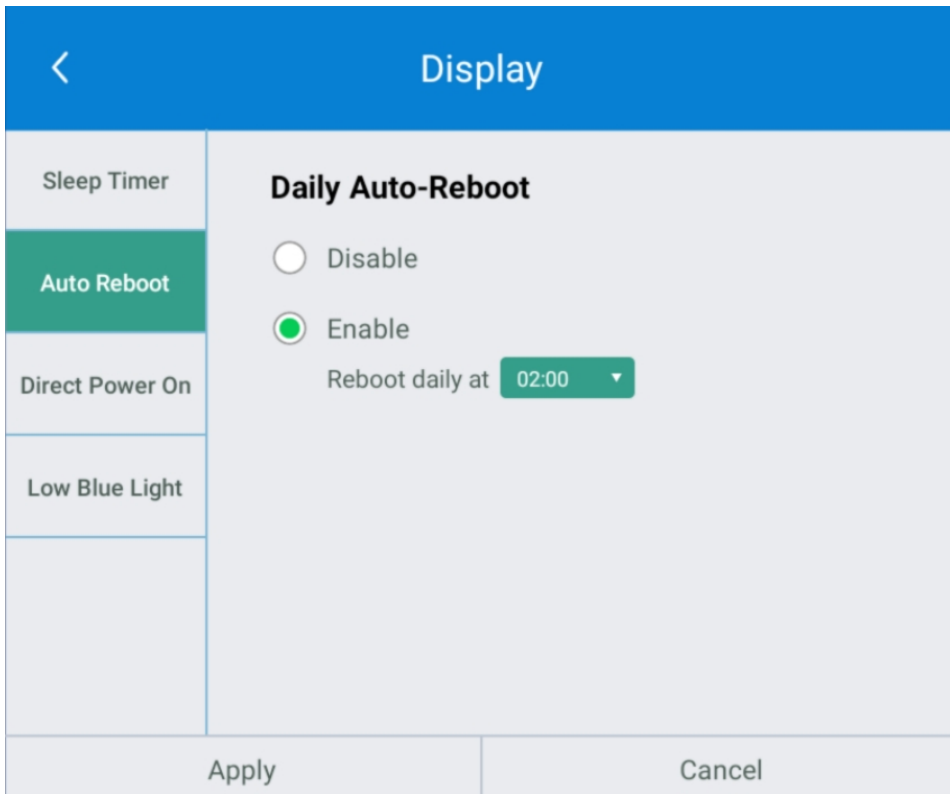

Time scheduler pane

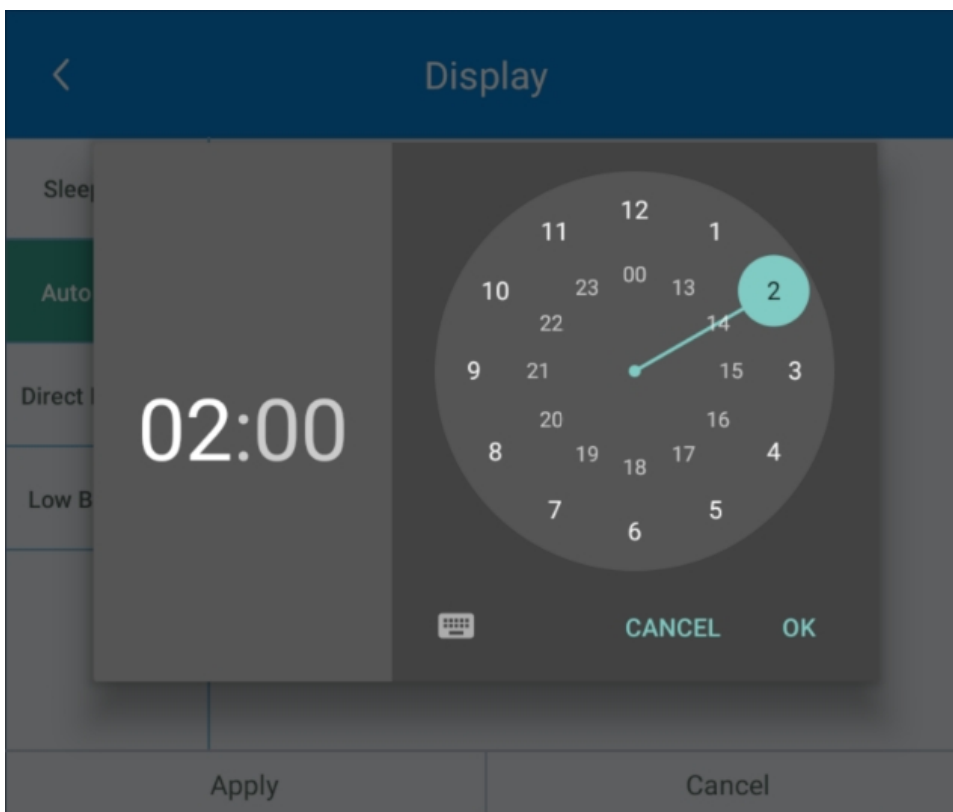

Display will be on and off since the weekday and time are set.

- Auto Reboot

NovoTouch can do daily system restarting when **Auto-Reboot** is enabled. The default option is disabled.

Auto-Reboot

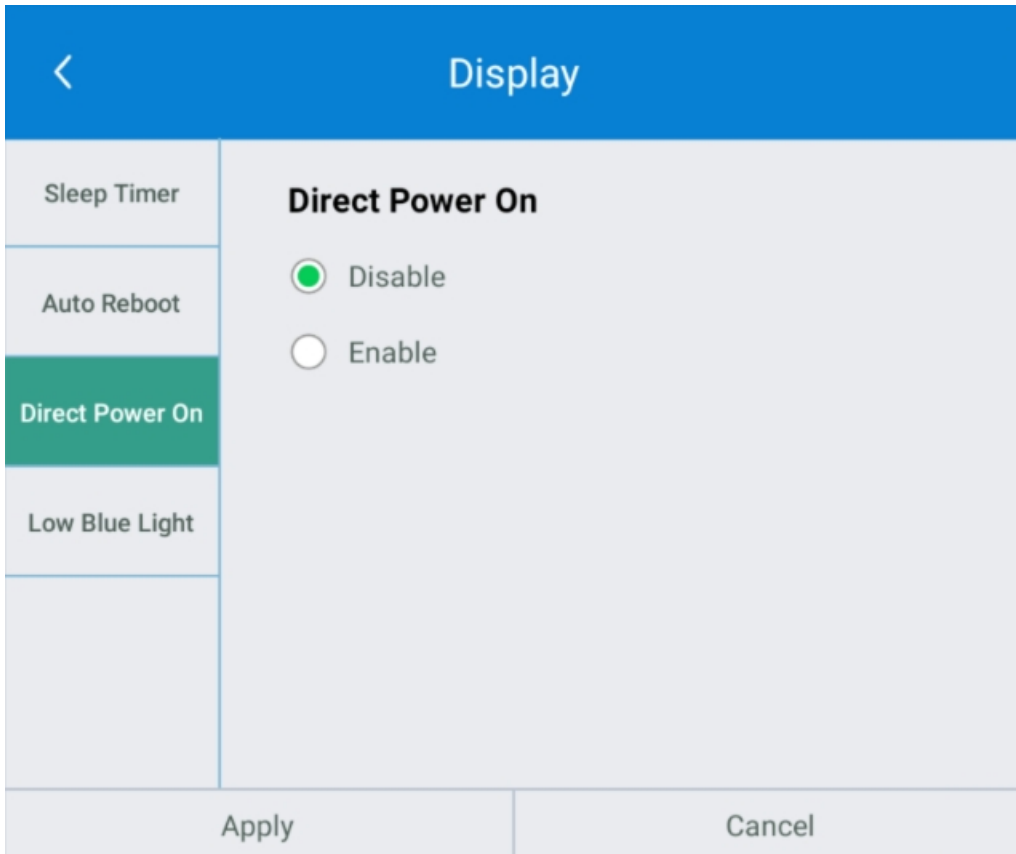

Clock pane – Time scheduler

- Direct Power On

NovoTouch will automatically turn on after plugged in the power cord, when this option is enabled. When power recovered

by failure, NovoTouch will also automatically turn on. The default option is disabled.

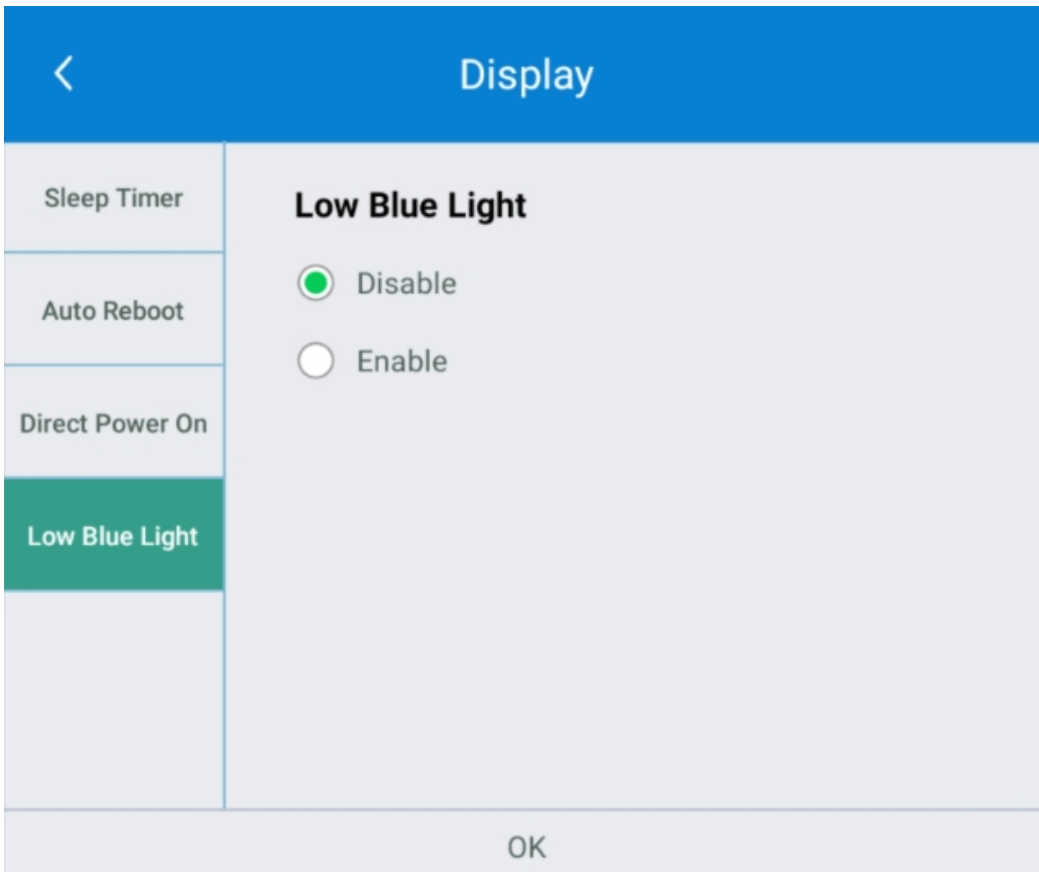

Note: The main power switch must remain on. Otherwise, NovoTouch will not be automatically powered on by this option enabled, even the condition is met.

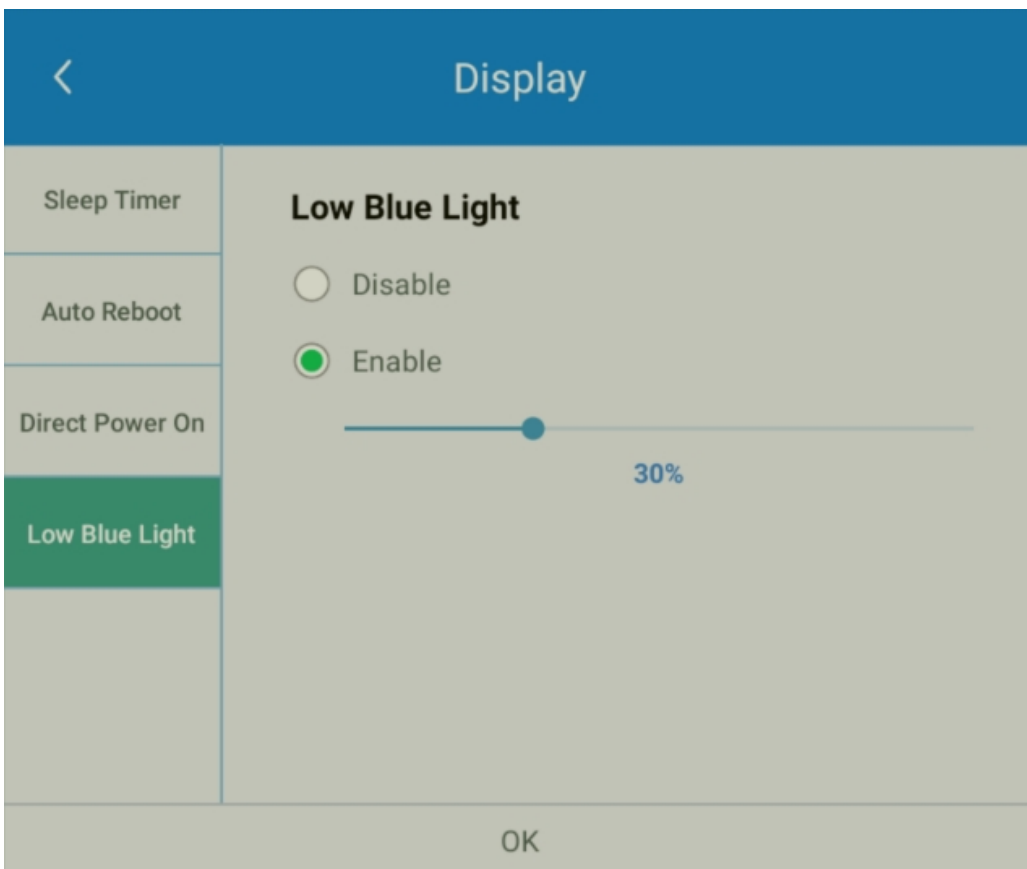

Direct Power On

- Low Blue Light

NovoTouch come with Low Blue Light technology.

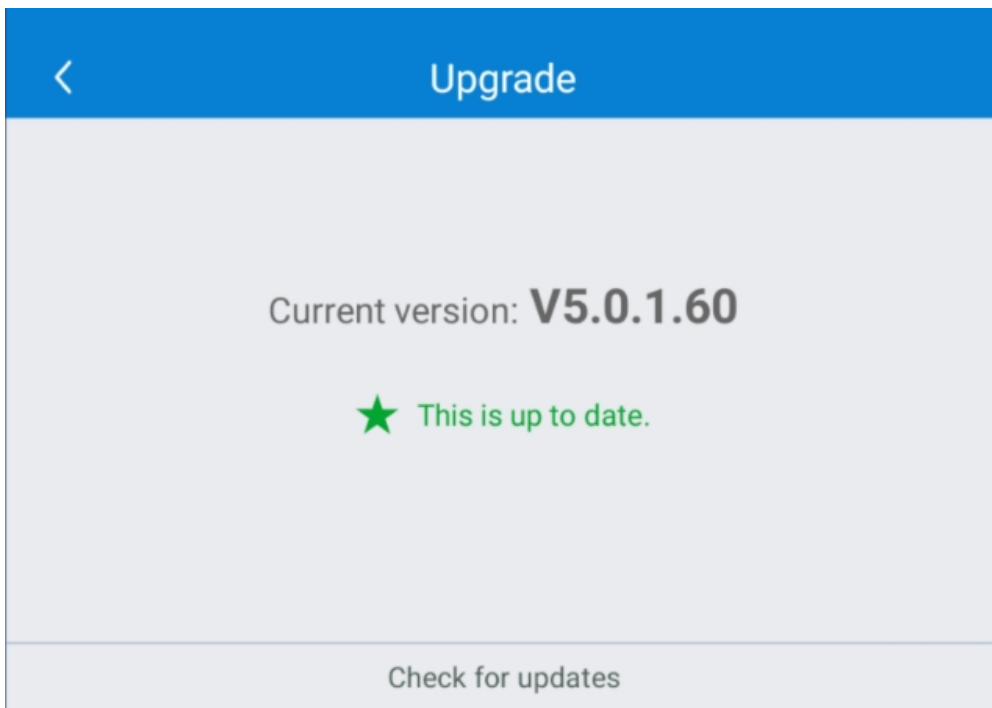

Low Blue Light – Disable

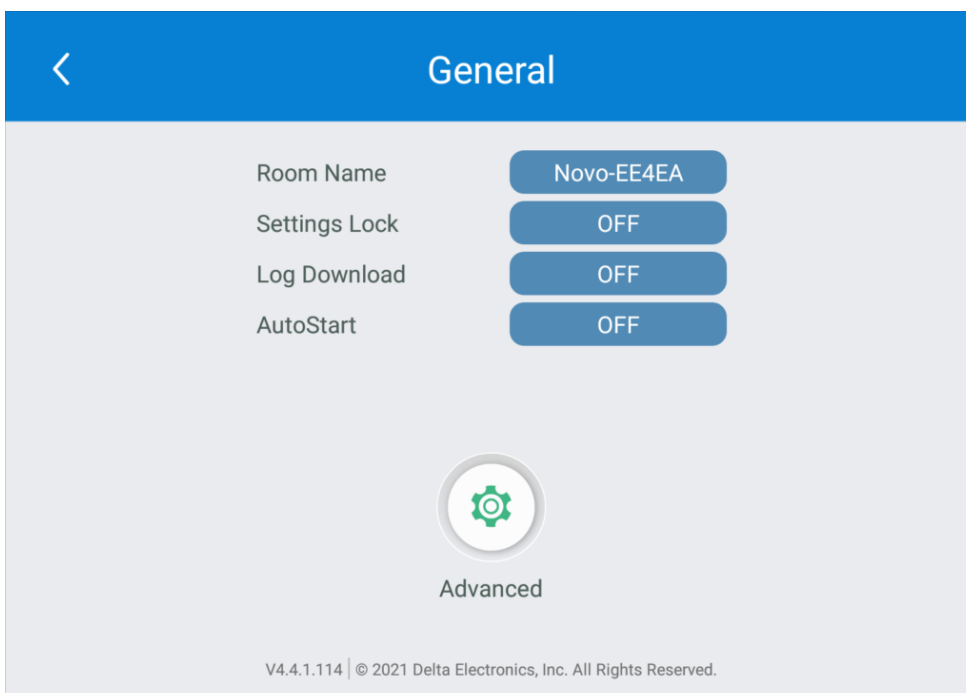

Low Blue Light – Enable

Upgrade

User can check the current software version here. And also if the updates available, user can perform online upgrade by tapping **Check for updates**. (Internet connection is needed for the process)
