

5.6 Sharing File and Webpage (URL)

User can share files* and webpages** (URL) between different platforms when they're connecting to NovoConnect. This article will instruct you how to share via NovoConnect solutions.

*Any files less than 10 MB (1MB = 1024 KB).

**Open an online webpage (URL) will need Internet connection.

Sharing

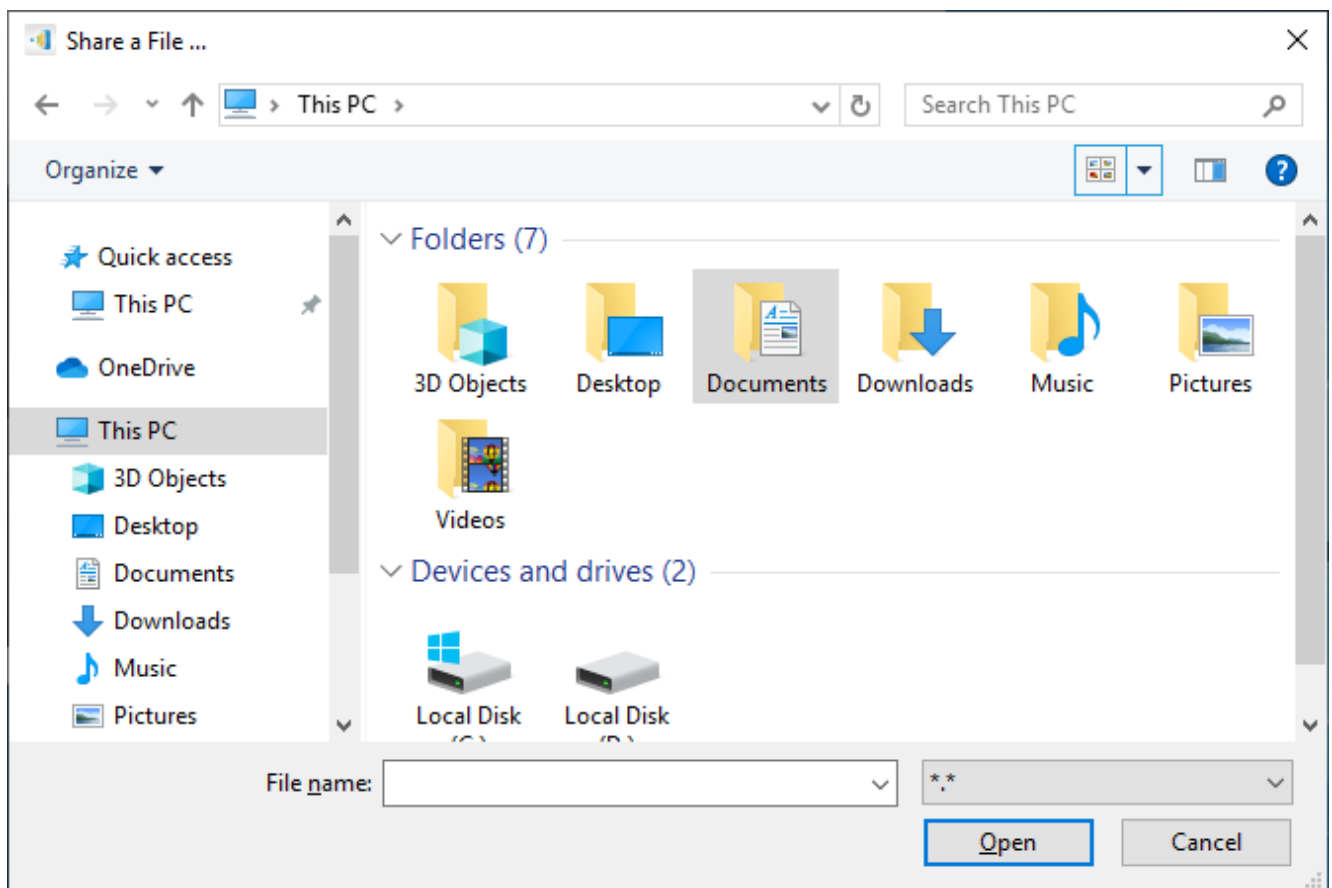

Click **Tools** on Top-right of the NovoConnect software interface, then click **Share**.

Then you can choose files, take a screenshot of current desktop or paste webpages to others who connected to the same NovoConnect device.

- Share a File ...
 - Share Desktop Screenshot
 - Share Webpage
-
- Browse "GroupShare" Folder
 - Browse Webpages Received

▪ Share a File

▪ Share a Desktop Screenshot

- Send a Webpage

When the file or webpage have been received, there will be a message shown on you desktop screen. User can also check the content by clicking **Open**, or dismiss the dialog by clicking **Close**.
