3.4.1 Using Native Mirroring

MacOS or iOS – AirPlay

iOS 12+

Step 1. Connect your iPhone/iPad to the same Wi-Fi network as your Novo device.

Step 2. Swipe **DOWN** from the top-right corner of your screen to access Control Center > Tap **Screen Mirroring** and then select the Novo device.

iOS 11 and Older Version

Step 1. Connect your iPhone/iPad to the same Wi-Fi network as your Novo device.

Step 2. Swipe **UP** from the bottom of your screen to access Control Center > Tap **AirPlay** > select the Novo device.

For more details, please go to LaunchNovo.com > iOS.

Android – Google Cast

The way to enable Google Cast varies among Android devices. Some of them have it in “Settings/Display” menu while others offer it via its swipe-down menu. Here is an example for Google Pixel phones.

Step 1. Connect your Android phone/tablet to the same Wi-Fi network as your Novo device.

Step 2. Swipe DOWN from the top of your screen. Tap **Screen Cast** and then select the Novo device.

Important: *Make sure “Power Saving” mode has been disabled.*
