

1.1 What is NovoDisplay

NovoDisplay is a unique and innovative All-in-One display that combines a 4K Ultra HD IPS-ADS technology, digital signage, wireless collaboration, and video conferencing. The DK3 series is our latest iteration of the product family, with the following key features

- High-performance LCD panel: 4K@60Hz, 500nits, 50,000 hours life time, and landscape/portrait orientation
- Internal Storage: 32GB in total (~ 25GB user space)
- Connectivity: USB, Bluetooth, RS232, Audio In/Out, HDMI In/Out
- Networking: Built-in WiFi and LAN (100Mbps/1Gbps)
- OPS slot: Support Intel x86 OPS modules and Android OPS module (e.g. Vivitek's VKA-G1 module)
