

## 5.2 How to Rename Hotspot SSID and Encryption

To change rename WiFi Hotspot SSID and change its security settings (security protocol and its password.)

**Step1.** Go to **Presentation > Settings > Device Settings > General > Advanced >** under WIRELESS & NETWORKS section **> More... > Tethering & portable hotspot.**

**Step2.** Set Hotspot SSID and password.

\* **NOTE:** The hotspot SSID must be unique in the WiFi network.
