2.1 Installing the Wall Mount

Before installing the wall mount ensure the following:

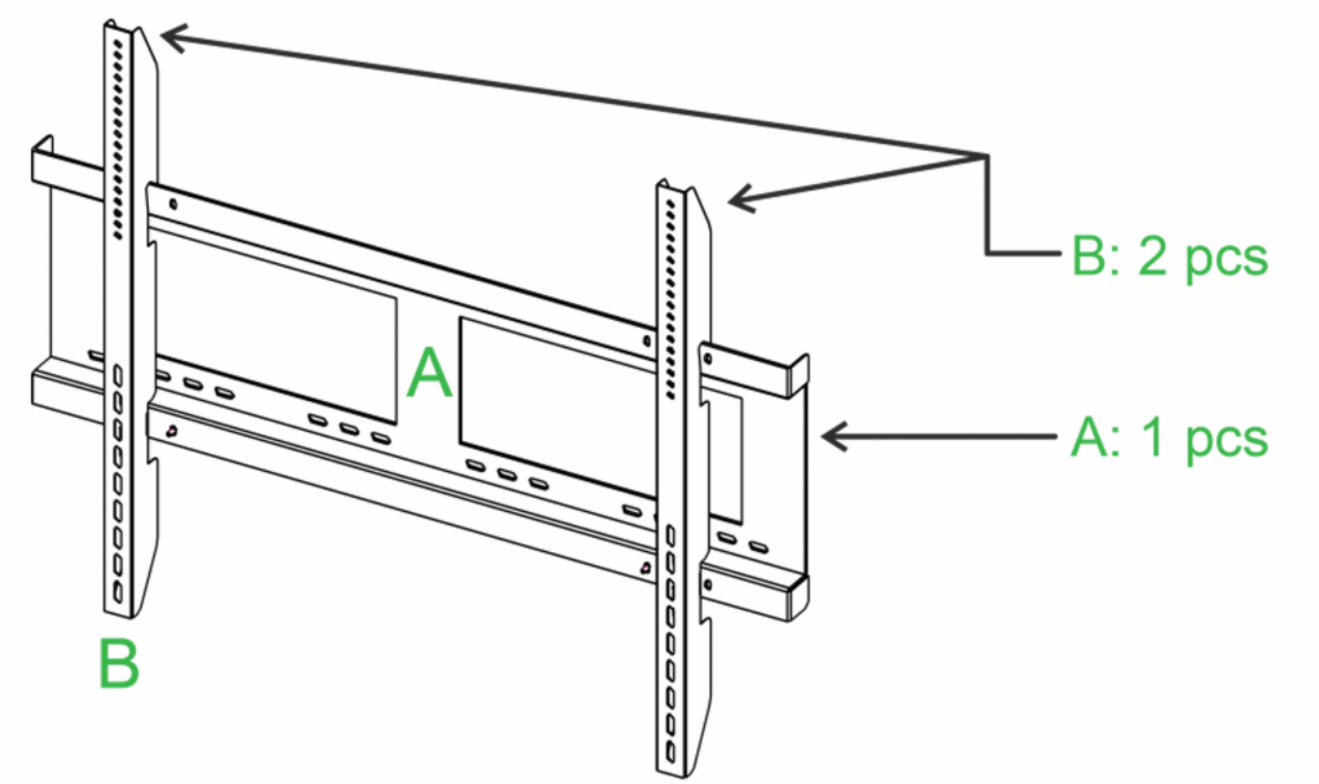

• Installation should only be done by a certified professional.

• Maximum wall mount kit load capacity:150kg (330lbs).

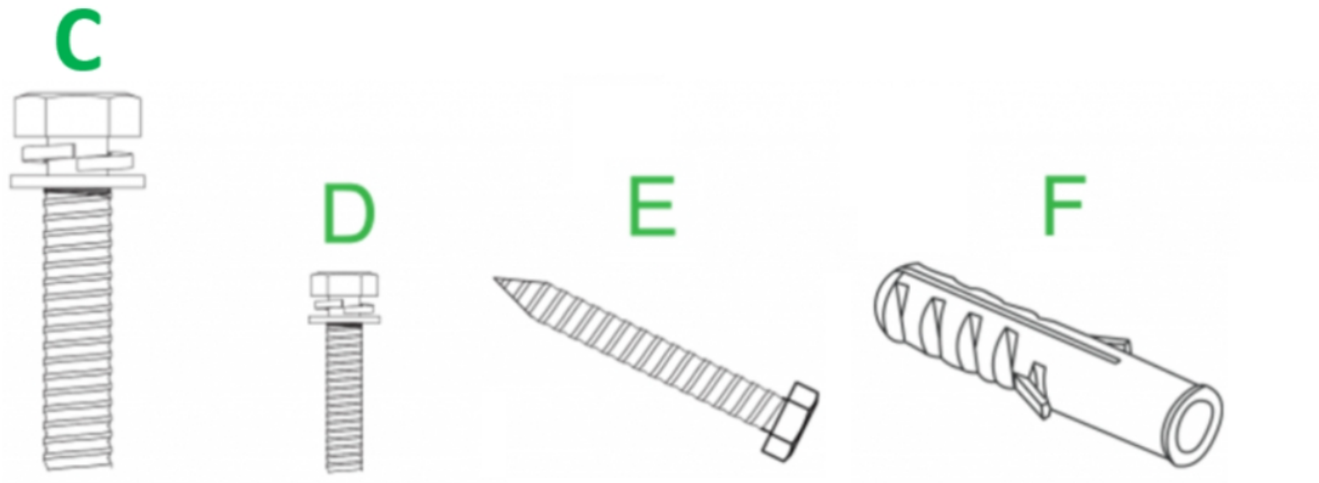

• When setting the display down to install the wall mount, place it face down on a flat and stable surface covered by a protective sheet or cloth and a table cushion as shown in the illustration provided. DO NOT place the display on an uncovered surface.

• Ensure that all the following parts are included in the wall mount kit:
