3.3.3 Presentation: Using NovoConnect Software

Supported Models: NovoTouch, NovoDisplay, NC-X700, NC-X900, NovoStage, NovoCast, NovoPro and NovoEnterprise.

NovoConnect Software allows you to wirelessly connect to a Novo-series product from your Windows/Mac/Ubuntu/ChromeOS computers and iOS/ Android tablet or smartphone. Up to four users can share screens simultaneously. Innovative annotation tools make it easy for everyone to join in the conversation. Wireless file sharing and voting/polling functionalities help keep everyone in the loop. Windows, macOS, iOS, Android, Ubuntu and Chromebook user can use NovoConnect Software to share screen and collaboration.

Download NovoConnect Software

Windows/ MacBook/ Ubuntu/ ChromeBook: Go to **LaunchNovo.com** to download. We provide portable and installation version for user chose. Click NovoConnect software to launch it.

How to Join a Meeting

Step 1. Under the same network with NovoConnect products.

Step 2. In NovoConnect Software, you have two options to join a meeting.

- Select the desired NovoConnect device from **Nearby Devices**, **History**, or **Device Directory**.
- Based on the NovoConnect device home screen information to enter **Meeting ID**, **IP address** or **Meeting Room Name**.

Step 3. Enter the Pin code if pin lock is enabled.

How to Start/Pause
