

## 3.11 On-Screen Annotation

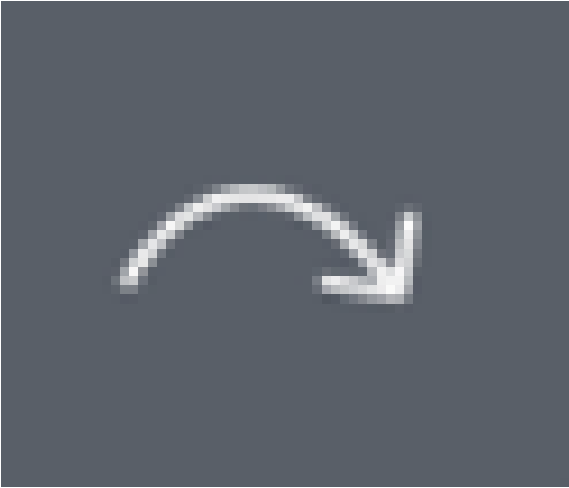

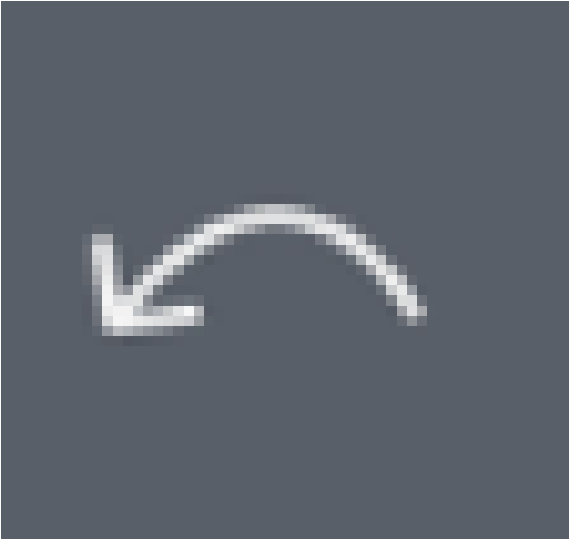

Once your PC or laptop screen is mirrored to the NovoTouch, the **On-Screen Annotation** icon is displayed on the bottom-left corner, and is set to a minimized icon by default.

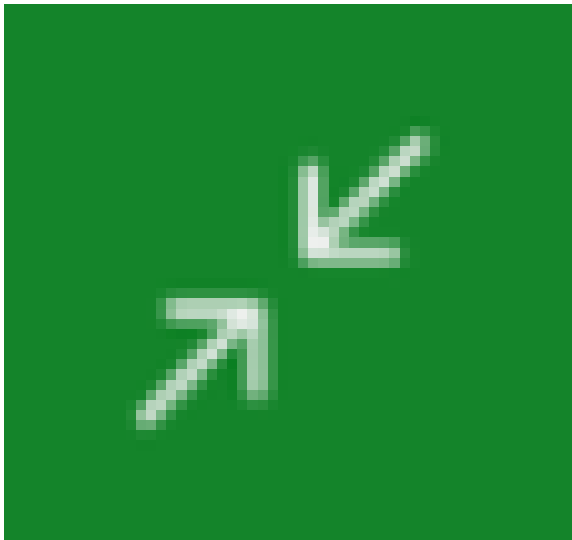

Tap the icon  to expand the tool palette. There are eight features in the feature wheel.

The following table has the description of each tool icon.

| Icon                                                                                | Functions            | Description                                                                            |
|-------------------------------------------------------------------------------------|----------------------|----------------------------------------------------------------------------------------|
|  | Pen &<br>Highlighter | 1) Click to enable this tool<br>2) Long-press to select pen/highlighter, color, & size |
|  | Eraser               | Click to enable Eraser                                                                 |

| Icon                                                                                | Functions          | Description                  |
|-------------------------------------------------------------------------------------|--------------------|------------------------------|
|    | Disable Annotation | Disable on-screen annotation |
|   | Redo               | Re-do                        |
|  | Undo               | Un-do                        |

| Icon                                                                                | Functions                    | Description                                                        |
|-------------------------------------------------------------------------------------|------------------------------|--------------------------------------------------------------------|
|    | Delete                       | Delete all on-screen annotation                                    |
|   | Snapshot to all participants | Send screen snapshot to all meeting participants (connected users) |
|  | Snapshot to presenters       | Send screen snapshot to presenters                                 |

| Icon                                                                              | Functions | Description                        |
|-----------------------------------------------------------------------------------|-----------|------------------------------------|
|  | Collapse  | Click to collapse the menu palette |
