NovoDS
NovoDS-Cloud wants to access your Facebook Account
This will allow Novo devices to see your name, profile picture, timeline posts, photos and videos.
Login with Facebook
You can remove NovoDS-Cloud connections between Facebook and Novo-series devices anytime by going to Facebook > Settings & Privacy > Permissions > Apps and Websites, to remove NovoDS-Cloud service under your Facebook account.

NovoDS-Cloud is requesting access to:
Your name and profile picture, photos, timeline posts and videos.
Edit access
Continue as John
Cancel
By continuing, NovoDS-Cloud will receive ongoing access to the information you share and Facebook will record when NovoDS-Cloud accesses it. Learn more about this sharing and the settings you have.
NovoDS-Cloud's Privacy Policy and Terms

Step4. Copy and paste your Facebook access ID on the **Facebook Access ID** box.

Step5. Once published the playlist you will see your Facebook picture, videos or text content update.

How to remove your Facebook account from Novo-series Device

Please note that once removed the Facebook Access ID, Facebook will be disconnected with your Novo device(s).

Step1. Go back to **get Facebook Access ID** via DS Studio or NovoDS.com then delete your access ID.
