

How to broadcast Facebook to Novo-series device(s)

Supported models: NovoConnect NC-X700, NC-X900, NovoDisplay, NovoTouch

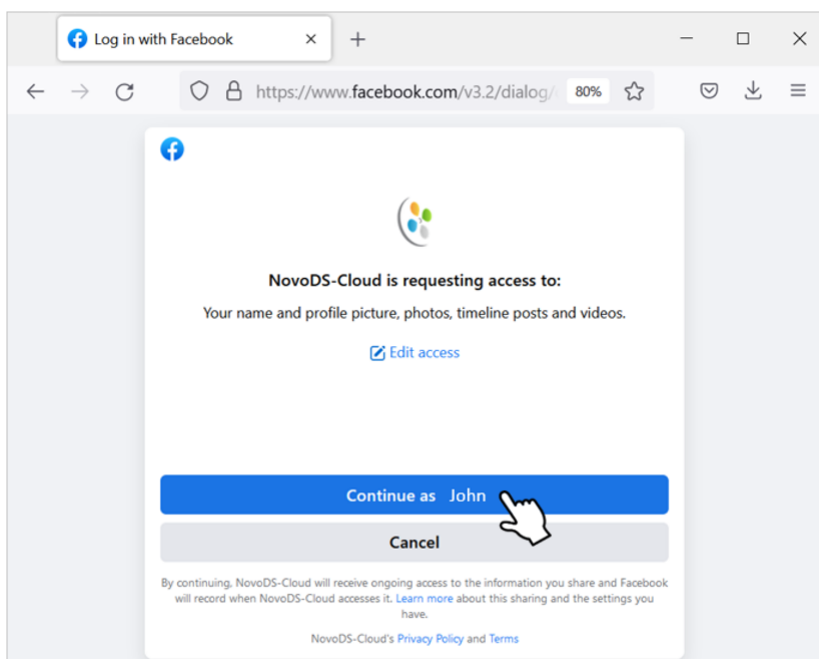

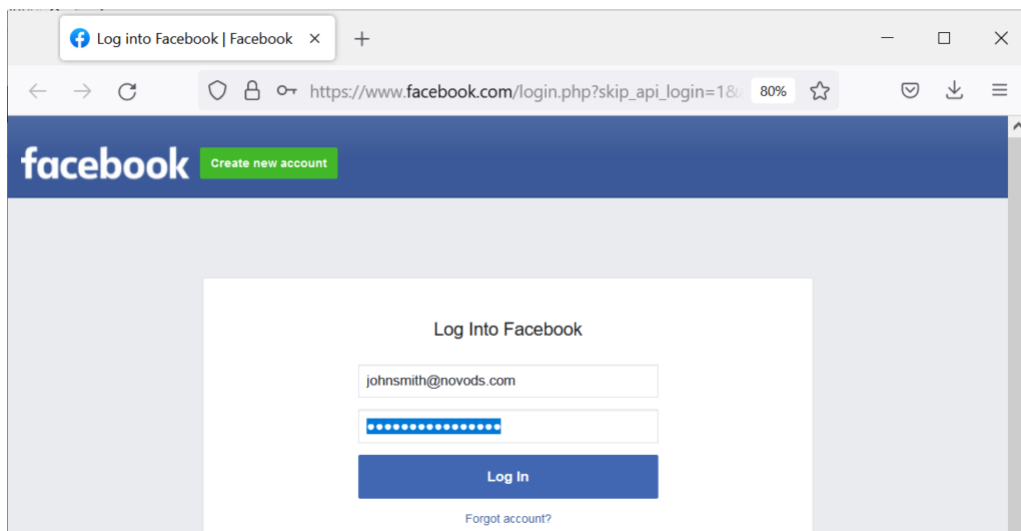

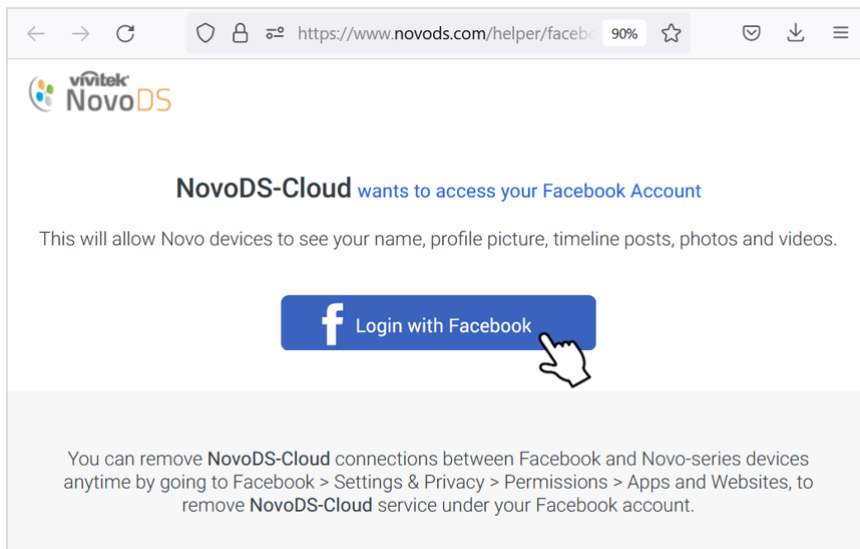

NovoDS version: NovoDS V4.0.0 and above.

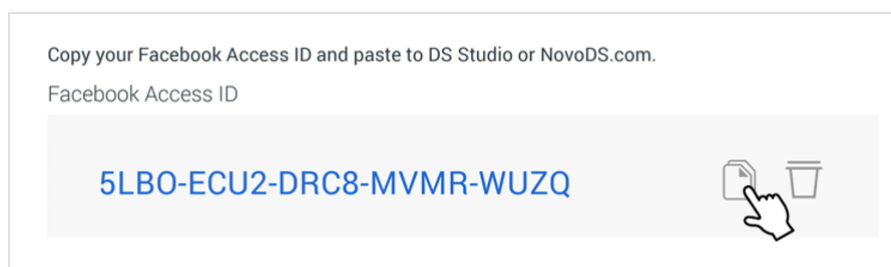

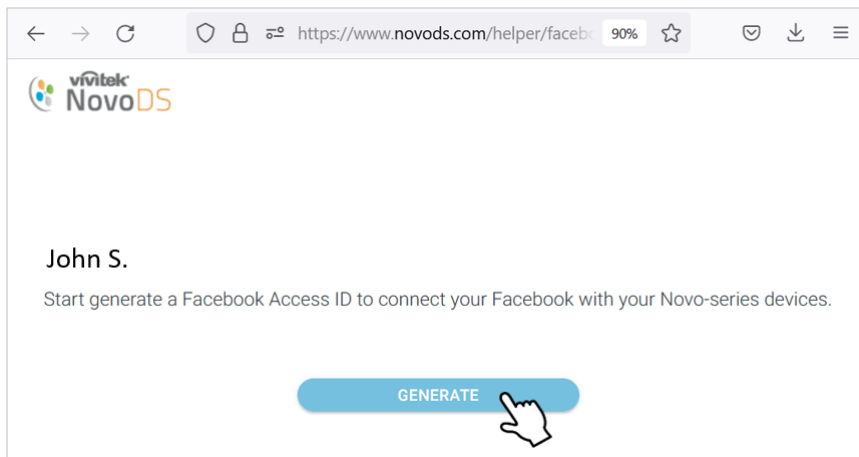

Step1. Use DS Studio software or NovoDS.com, create a playlist.

Step2. Go to **Social Media widget > Facebook > Facebook Access Id > Get Access ID**

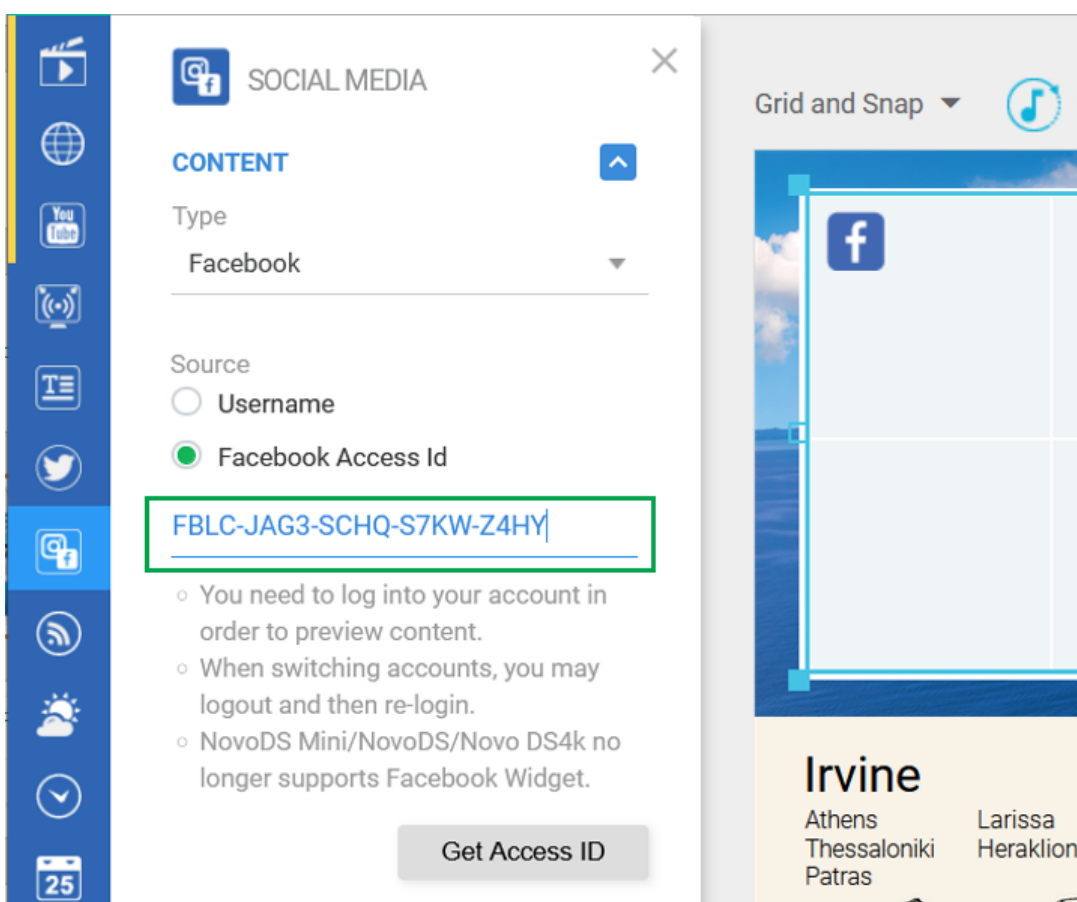

Step3. Pop up a Facebook page, please follow Facebook access instruction to get your Facebook Access ID.

Step4. Copy and paste your Facebook access ID on the **Facebook Access ID** box.

Step5. Once published the playlist you will see your Facebook picture, videos or text content update.

How to remove your Facebook account from Novo-series Device

Please note that once removed the Facebook Access ID, Facebook will be disconnected with your Novo device(s).

Step1. Go back to **get Facebook Access ID** via DS Studio or NovoDS.com then delete your access ID.

Copy your Facebook Access ID and paste to DS Studio or NovoDS.com.

Facebook Access ID
