# How to schedule panel on/off (sleep timer)

Model name: NovoDisplay DK430, DK550, DK650, DK750

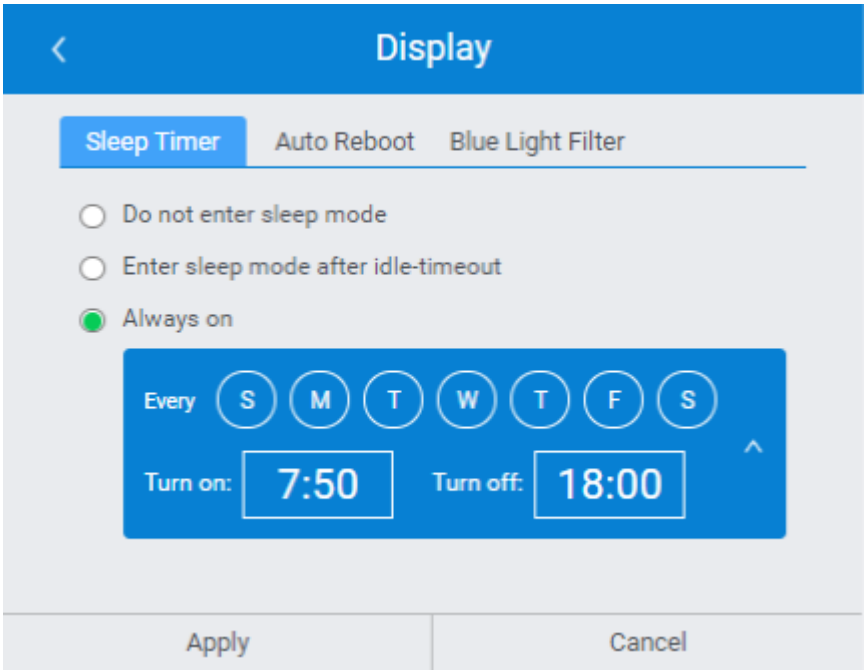

Firmware version: V4.2.0

**Step1.** Use a use mouse to connect with NovoDisplay.

**Step2.** Go to **Presentation** > **Settings** > **Display** > **Sleep Timer**

Sleep timer is disable by default.

User can schedule panel ON/OFF by weekly.

In this case, the NovoDisplay turns on panel from 7:50AM to 6:00PM everyday.

If user want to turn ON/OFF panel remotely via network. Please go to this article.
