# How to Use LauncherPlus

FIRST-TIME USAGE

There are two options, option #2 is for IT deployment.

Option 1. Typical Software Installation

	Step 1. Connect LauncherPlus
	Step 2. Browse the LauncherPlus USB storage and double click Launch Novo.exe. This will complete the auto installation process (only for first time set up).

Option 2. Mass Deployment

	Step 1. Download and deploy MSI package
	Step 2. Connect LauncherPlus and software will automatically launch

I HAVE RUN IT BEFORE

Simplicity at its best. Just plug and play.

By default, LauncherPlus runs Lite version, user can FREE UPGRADE to FULL version.How to upgrade to FULL version, please go to this [article](#).
