## 

MacBook users can use AirPlay for screen sharing (see the <u>article</u>) or LauncherPlus.

This article is for macOS new privacy rule on macOS 10.15 (macOS Catalina), user have to enable some rules on Security Settings on macOS to allow LauncherPlus for screen sharing.

For macOS user still can use AirPlay for screen sharing (see the <u>article</u>) under the same network.

For macOS audio not working please read audio adapter solution (see the <u>article</u>).

#### FIRST-TIME USAGE

Step1. Plug LauncherPlus in. For first time use, please click
Launcher drive > Launch Novo.

Step2. First time launch, due to macOS 10.15 security policy, it will popup a Keystroke Receiving message, please click Open system Preferences > toggle Unlock > Input Monitoring > enable launchPlusRun and DesktopStreamer > Quit Now.

	"DesktopStreamer" will not be able to monitor input from your key <u>board unt</u>	) il it is
	quit. You can choose to quit "DesktopStreamer" no	w, or do

Step4. Then you can start connect Novo product.

Note: If it is still not working please restart macOS.

# Connected but no windows can be projected

For First-time use, macOS 10.15 user have to allow our software (DesktopStreamer and NovoConnect) at Screen Recording policy.

Step1. Popup the Security setting again for Screen Recording, click Open System Preferences > Screen Recording > Enable DesktopStreamer > Quit Now.
