

# Hardware Installation

Installing NovoCast NC-1000 is very simple and straightforward. The following figure summarizes the key peripheral ports available. (You may refer to the Quick Start Guide for details.)

## Key Peripheral Ports

Typically, users just need to attach the following four ports

- Attach the WiFi antenna
- Connect the HDMI cable
- Plug in the Ethernet port
- Apply the DC power with the AC-DC adaptor provided

In addition, a simple mounting kit is also available in the package, with which you could mount the NC-X300 main unit in your settings, like on the wall, beneath a conference table, etc.

Mounting Kit
