

What is NovoCast

The NovoCast NC1000 is a simple-to-use wireless collaboration solution for businesses of all sizes. With the NovoCast, up to 2 meeting participants are able to wirelessly show content from any device to larger display screen, while up to 40 participants can be connected simultaneously. The cross-platform compatible NovoCast facilitates wireless collaboration with a complete suite of functionalities, including the ability to display 4 participants simultaneously, instantly switching to the other team members, file sharing, real-time annotation, interactive display and wireless mouse touchback.

NovoCast comes with the following hardware configuration

- Display Output (HDMI): up to 1080p resolution @ 30fps
- Internal Storage: 8GB in total (~ 5GB for users)
- Connectivity: USB, Audio Output

- Networking: Built-in WiFi and LAN (via USB-to-Ethernet adapter)
- Kensington Lock
- Accessories: USB-to-Ethernet adapter
