Presentation: Using AirPlay, Google Cast

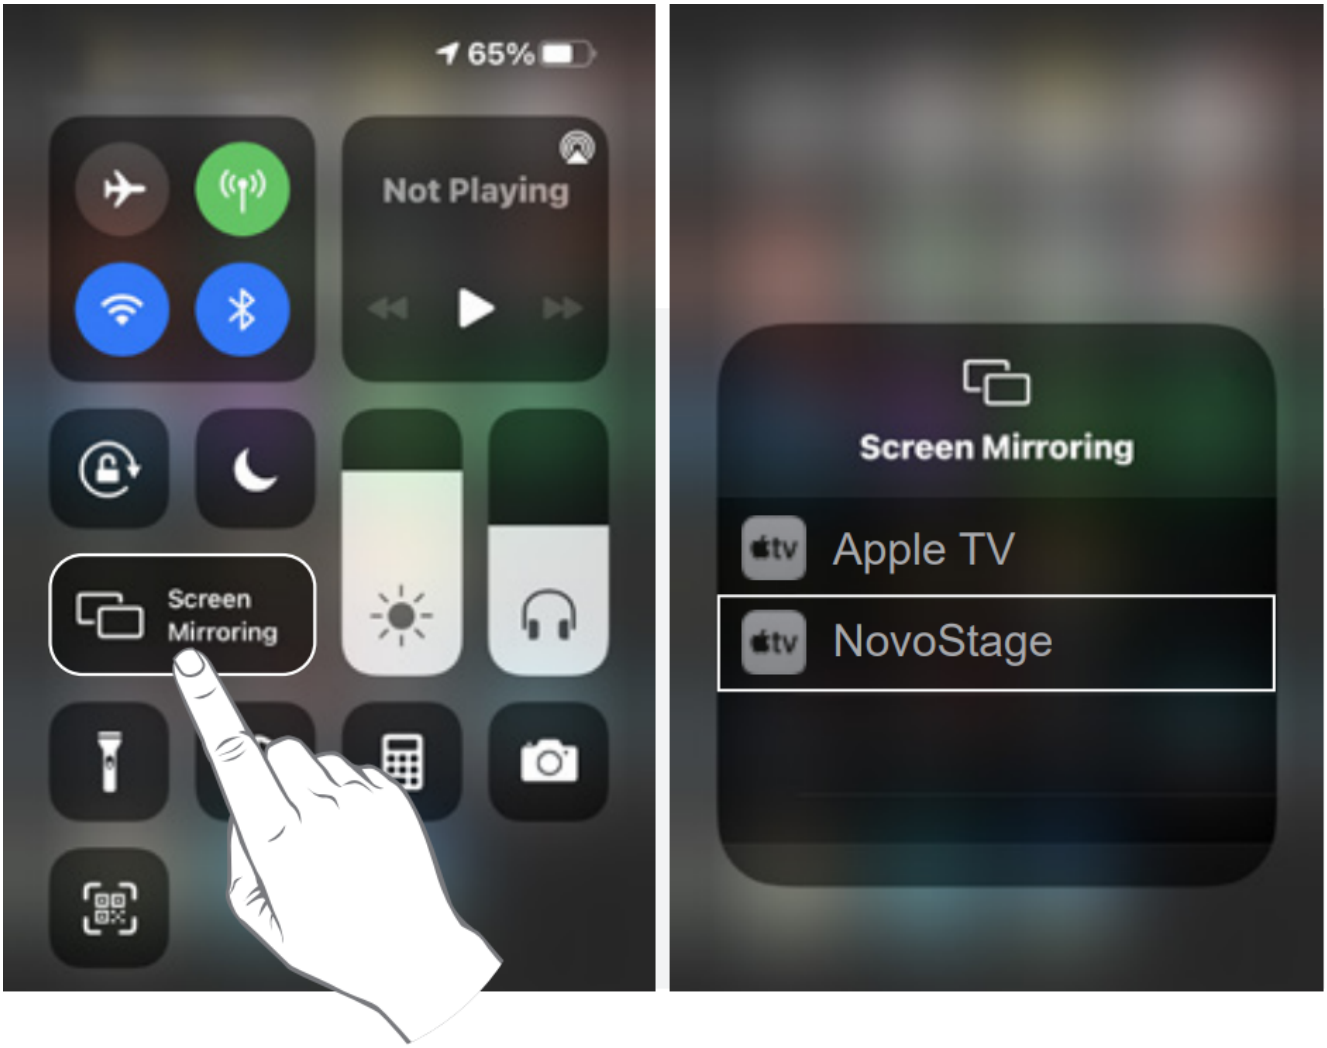

macOS or iOS – AirPlay

Supported model name: NovoTouch, NovoDisplay, NovoStage, NC-X900, NC-X700, NovoEnterprise, NovoPro and NovoCast.

iOS 12+

Step 1. Connect your iPhone/iPad to the same Wi-Fi network as your Novo device.

Step 2. Swipe **DOWN** from the top-right corner of your screen to access **Control Center** > Tap **Screen Mirroring** and then select the Novo-series product to screen sharing.

iOS 11 and Older Version

Step 1. Connect your iPhone/iPad to the same Wi-Fi network as your Novo device.

Step 2. Swipe **UP** from the bottom of your screen to access Control Center > Tap **AirPlay** > select the Novo-series product.

For more details, please go to LaunchNovo.com > iOS.

Android – Google Cast

Supported model name: NovoTouch, NovoDisplay, NC-X900, NC-X700, NovoEnterprise, NovoPro and NovoCast.

Here is an example for Google phone.

Step1. Connect your iPhone/iPad to the same Wi-Fi network as your Novo device.

Step2. Swip **DOWN** from the top of your screen > Tap **Screen Cast** > select the Novo device.

Note: Make sure **POWER SAVING** mode has been disabled.
